

Culmullin 220 kV Substation

Energia Renewables plan to construct a new 220 kV transmission substation in the townland of Culmullin, Co. Meath, to facilitate the export of renewable energy from our solar developments in the local area into the national grid. The proposed Culmullin 220 kV Substation will help Ireland to achieve its 2030 Climate Action targets.

Key

-  Woodtown Solar Farm
-  Culmullin 220kV Station
-  Existing Gorman Maynooth Overhead Line
-  Culmullen Church
-  Moynalvey National School
-  Local Roads
-  Moynalvey Road
